

New Automated Collection

- In the next few weeks, residents can expect to see Alpine GFL's automated trucks servicing neighborhood. The trucks feature a specialized articulating grabber arm that can easily grab, lift and dump recycling cans into the truck.
- The more efficient automated truck allows drivers to pick up more carts in a day and technology on the truck allows for the truck to function at idle speeds, keeping noise at a minimum and fuel consumption down.
- The automated trucks are equipped to pick up carts from one side of the street at a time. So, residents will notice the trucks driving down their streets twice in the same day.
- The safer automated service has the steering wheel on the right side of the cab, so if the driver must get out of the truck for any reason they are not stepping into traffic. The system eliminates manual lifting and exposure to possible hazards, such as sharp objects and exposure to pathogens in the waste. The automated carts are also more resistant to tipping by animals than customer owned containers which reduces blowing litter and strewn waste.

Safety, Efficiency, Environmentally Friendly!!!

Trash Cart & Service

- Please use GFL issued cart for trash.
- If your trash is not in a GFL cart you will not receive service. If you have previously purchased an Alpine cart, you may still use it
- Any extras that do not fit in the cart should be place on the curb 3ft. from the cart.
- Trash will be limited to the provided 95g cart, two additional carts (if purchased by the homeowner) and up to 5 bags.
- During October & November, GFL will allow additional bags of leaves if bagged correctly. Branches and limbs must be bundled into four-foot lengths and no larger than twelve inches in diameter.

New Automated Collection

Recycle Cart & Service

- At this time, recycle service will not change to the automated truck and will be collected with a traditional rear load truck.
- You can place recycled materials in the container provided for service. If you wish to purchase an additional container, please contact Customer Service at (303)744-9881.
- Detailed information about what is accepted in our recycle program is included in the following page, as well as the 2020 Recycle Calendar.

Cart Placement

Placing carts in the appropriate area is easy and necessary for pick-up.

Here are tips to ensure cart collection occurs:

- All items must be placed inside the cart with the lid securely closed. Ensuring that litter is not blown in your neighborhood and that all disposed items are secure.
- Any extras that do not fit in the cart should be placed on the curb 3ft. from the cart.
- Carts cannot block the sidewalk.
- Carts must be placed 5 feet from any obstructions, such as vehicles, mailboxes, meter boxes, cable boxes, or trees - and within 1 foot of the curb. The optimal placement is on the curb. But, we recognize that in some areas, the carts must be placed on the street.
- Carts need to be placed 2 feet away from fences or other fixed objects.
- Carts must not be placed on an incline or slanted area because they will roll when they are emptied and returned to their position.
- Carts must be placed 2 – 3 feet apart to allow for the automated arm to service them.

Additional Info

- For large item pick up/disposal, please call Customer Service to setup the payment and removal of items. The 2020 price sheet is included in the following pages.
- Electronics cannot be taken. They can be taken to an electronics recycler.
- For any questions, concerns or help with items not included here, please call Customer Service.

RECYCLABLE ITEMS

Metal Food Cans

Plastic Bottles & Jugs #1-7
